Cancel Add Device AP Mode

Press the "DISPLAY" key on the remoter
6 timers within 6 seconds
until the LCD screen show "CF"

Next Step

Instructor light is in other status

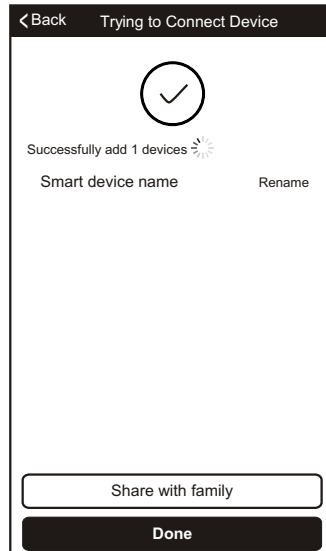

Add the device (CF mode)

For CF Mode

1. The system defaults to CF mode at first, Press "Next Step" to continue.
2. Select the home router, and fulfill the password of router, press "Next" to continue.

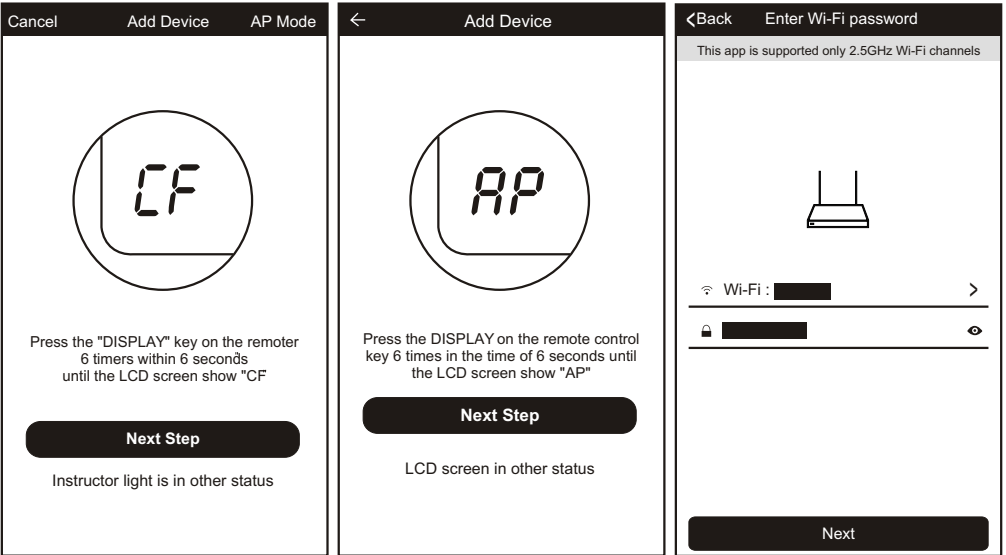

3. The APP software will automatically do the device match.
4. After match successfully, the page will display the prompt as below.
5. You can "Rename" the device name as you like, or share with family, or press "Done" to start to control the device.

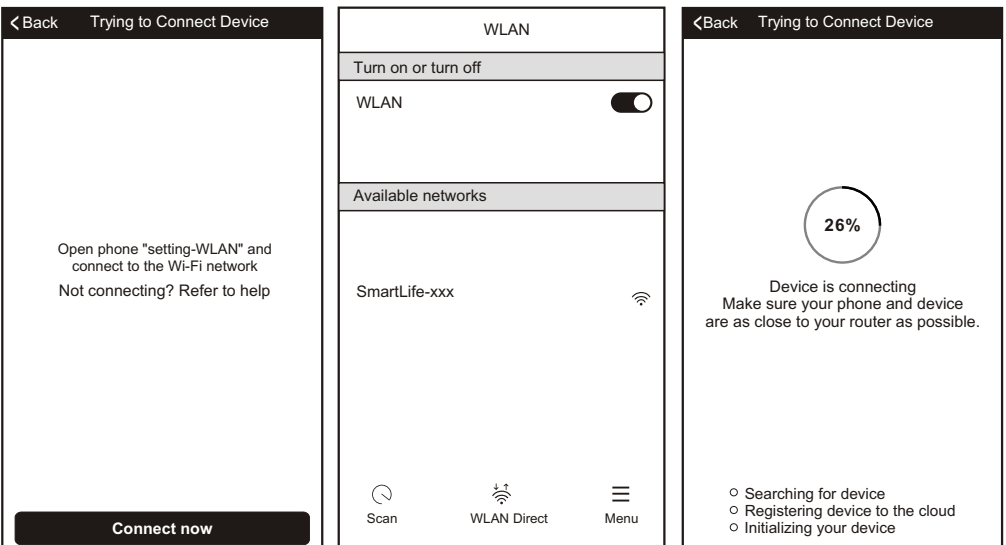

Add the device (AP mode)

For AP mode

1. Click the "AP Mode" to the "AP" page. Press "Next Step" to continue.
2. Select the home router, fulfill the password, press "Next" to continue.

3. Select the AC Device as name "SmartLife-XXX" at the WLAN setting, then back to the APP interface. The APP will automatically do match.

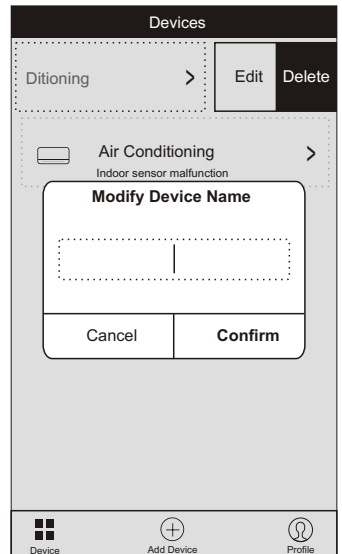

Add the device (AP mode)

4. After match successfully, the page will display the prompt as below.
5. If match failed, the APP will mention it, and press "Retry" to try again.

Delete the device or Modify device name

- Go back to "Device list" page at first.
Slide the device name toward the left side, you can choose to delete it,
or modify the device name as you like.

Air conditioner control

1. Click the air conditioner name to enter the control interface. Turn ON/OFF.
Adjust the setting temperature.

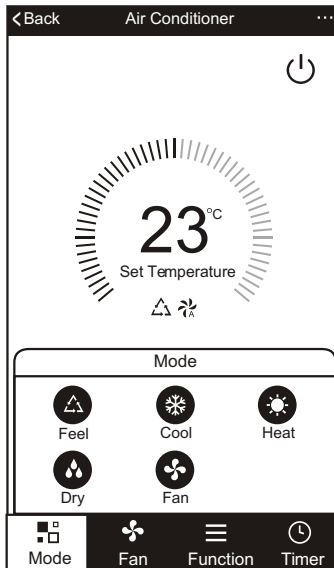

* For App update, there maybe deviation of the actual items from what is on the manual without prior notice. We express our apologies.

2. Adjust the different operating mode, Cool, Heat, Dry, Fan, Feel mode. Click the "Mode" button, and choose different running mode as you like.

For the cooling only unit, the heat mode is no useful.

For Dry mode, at the first 3 minutes, the APP temperature display may be little different from the unit display, caused by the unit temperature fast changing.

Air conditioner control

3. Click the "Fan" button, choose different fan speed, Low, Med, High, Auto.

4. Other function control can be selected by "Function" button, Sleep, Turbo, ECO, UP-DOWN, LEFT-RIGHT.

When Sleep mode, the fan speed will be fixed to low speed.

Air conditioner control

5. Setting Timer function. Click the “Timer” button, the APP will enter to timer setting interface. It will display the task scheduler set before. You can longterm press to edit or build a new scheduler by “Add Timer” button.
